

Alleluia! Christ is risen!

*We celebrate the unfolding face of the Divine
Expressed so clearly in Jesus' life of fidelity, compassion, and healing.
His life poured out, body and blood shared
Now resurrected – constant presence of renewing Spirit
So that we could forever be in communion with him
and with all of creation.*

*This Easter may we become more aware of
God's transformative risen presence everywhere.*

*May we be resurrection people, bearers of hope,
Knowing that our God is a God
Who is always bringing life out of death,
And love out of hatred.
Inviting us to keep the story alive,
To be a healing presence in someone's sorrow,
to unify and forgive and most of all, to be Love.*

*May the blessing of the risen Christ and the blessing of
Nano and her companions fill you with love, joy and hope.*

*See
I am doing
something new.*

Isaiah 43:19
